

# ENGG\*3240 Engineering Economics

## Fall 2013

(Revision 0: Sept 5, 2013)

---

## 1 INSTRUCTIONAL SUPPORT

### 1.1 Instructor

Instructor: Soha Eid Moussa, Ph. D., P. Eng  
Office: THRN 1341, ext. 56141  
Email: [smoussa@uoguelph.ca](mailto:smoussa@uoguelph.ca)  
Office hours: open door policy or by appointment

### 1.2 Lab Technician

N/A

### 1.3 Teaching Assistants

<u>GTA</u>	<u>Email</u>	<u>Office Hours</u>
Oana Burlacu	<a href="mailto:oburlacu@uoguelph.ca">oburlacu@uoguelph.ca</a>	TBA on Courselink
Paul Dimaria	<a href="mailto:pdimaria@uoguelph.ca">pdimaria@uoguelph.ca</a>	TBA on Courselink
Haley Piagno	<a href="mailto:piagnoh@uoguelph.ca">piagnoh@uoguelph.ca</a>	TBA on Courselink
Rajecndra Sapkota	<a href="mailto:rsapkota@uoguelph.ca">rsapkota@uoguelph.ca</a>	TBA on Courselink
Heli Xu	<a href="mailto:heli@uoguelph.ca">heli@uoguelph.ca</a>	TBA on Courselink
Chen Zhang	<a href="mailto:czhang03@uoguelph.ca">czhang03@uoguelph.ca</a>	TBA on Courselink
Abenet Hodiya	<a href="mailto:ahodiya@uoguelph.ca">ahodiya@uoguelph.ca</a>	TBA on Courselink

---

## 2 LEARNING RESOURCES

### 2.1 Course Website

Course material, news, announcements, and grades will be regularly posted to the ENGG\*3240 Courselink site. You are responsible for checking the site regularly.

### 2.2 Required Resources

1. Niall M. Fraser, Elizabeth M. Jewkes 2013. Engineering Economics: Financial Decision Making for Engineers, 5<sup>th</sup> Edition. Pearson Education Canada.

*An electronic version of this book may be rented/accessed at the following web site:*  
[http://www.coursesmart.com/IR/4030454/9780132372756?\\_\\_hdv=6.8](http://www.coursesmart.com/IR/4030454/9780132372756?__hdv=6.8)

### 2.3 Recommended Resources

1. N/A

### 2.4 Additional Resources

**Lecture Information:** All the lecture notes will be posted on Courselink (week #1-#12).

**Lab Information:** N/A

**Assignments:** Download the assignments, all the solutions will be posted.

**Miscellaneous Information:** Other information may also be posted on the web page.

### 2.5 Communication & Email Policy:

Please use lectures and lab help sessions as your main opportunity to ask questions about the course. Major announcements will be posted to the course website. **It is your responsibility to check the course website regularly.** As per university regulations, all students are required to check their <uoguelph.ca> e-mail account regularly: e-mail is the official route of communication between the University and its students.

---

## 3 ASSESSMENT

### 3.1 Dates and Distribution

**Midterm test 1:** 25%

Mon Oct 7, 17:30-18:30, Room TBA on Courselink

**Midterm test 2:** 25%

Mon Nov 4, 17:30-18:30, Room TBA on Courselink

**Final Exam:** 50%

Mon Dec 2, 08:30-10:30, Room TBA on Webadvisor

### 3.2 Course Grading Policies

**Missed Assessments:** If you are unable to meet an in-course requirement due to medical, psychological, or compassionate reasons, please email the course instructor. See the undergraduate calendar for information on regulations and procedures for Academic Consideration:

<http://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-ac.shtml>

**Accommodation of Religious Obligations:** If you are unable to meet an in-course requirement due to religious obligations, please email the course instructor at the start of the semester to make alternate arrangements. See the undergraduate calendar for information on regulations and procedures for Academic Accommodation of Religious Obligations:

<http://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-accomrelig.shtml>

**Missed midterm tests:** If you miss a test due to grounds for granting academic consideration or religious accommodation, the weight of the missed test will be added to the final exam. There will be no makeup midterm tests.

**Passing grade:** In order to pass the course, you must obtain a grade of 50% or higher in the course.

---

## 4 AIMS, OBJECTIVES & GRADUATE ATTRIBUTES

### 4.1 Calendar Description

Principle of project evaluation, analysis of capital and operating costs of engineering alternatives, benefit-cost ratio, break even studies, evaluation recognizing risk, replacement and retirement of assets, tax consideration, influence of sources of funds.

*Prerequisite(s):* MATH\*1210

## 4.2 Course Aims

The main goals of the course are:

1. To acquire and independently apply concepts and techniques of economic analysis used to form engineering decisions.
2. To assess cost implication in engineering design and application.
3. To select a preferred course of action based upon monetary and non-monetary considerations
4. To assess risks and uncertainty associated with engineering economic decisions.

## 4.3 Learning Objectives

At the successful completion of this course, the student will have demonstrated the ability to:

1. Apply the concepts of time-value of money, taking into consideration the impact of interest on investment decisions
2. Select the appropriate evaluation method for comparing between alternate investment opportunities.
3. Evaluate different project/investment opportunities to select the most beneficial.
4. Determine the rate of return of a project based on a correct assessment of the appropriate method to use.
5. Utilize knowledge of depreciation to determine the book value of an asset for accounting and tax purposes.
6. Understand basic accounting concepts.
7. Apply the concepts of after-tax cash flow analysis to determine viability of a project.
8. Evaluate when an asset should be replaced based on the use of replacement analysis both before and after tax.
9. Apply the concepts associated with inflation to demonstrate understanding of asset/project value in real dollars versus actual dollars.
10. Utilize knowledge of public-sector decision making to recommend projects to be implemented.

## 4.4 Graduate Attributes

Successfully completing this course will contribute to the following CEAB Graduate Attributes:

<b>Graduate Attribute</b>	<b>Learning Objectives</b>	<b>Assessment</b>
1. Knowledge Base for Engineering	-	
2. Problem Analysis	1,2,3,4,5,6,7,8,9	Exams
3. Investigation	-	-
4. Design	-	-
5. Use of Engineering Tools	-	-
6. Communication	-	-

7. Individual and Teamwork	-	-
8. Professionalism	-	-
9. Impact of Engineering on Society and the Environment	9	-
10. Ethics and Equity	9	-
11. Environment, Society, Business, & Project Management	1,2,3,4,5,6,7,8,9	-
12. Life-Long Learning	1,2,3,4,5,6,7,8,9	-

#### 4.5 Instructor’s Role and Responsibility to Students

The instructor’s role is to develop and deliver course material in ways that facilitate learning for a variety of students. Selected lecture notes will be made available to students on Courselink/D2L but these are not intended to be stand-alone course notes. During lectures, the instructor will expand and explain the content of notes and provide example problems that supplement posted notes. Scheduled classes will be the principal venue to provide information and feedback for tests and project.

#### 4.6 Students’ Learning Responsibilities

Students are expected to take advantage of the learning opportunities provided during lectures. Students, especially those having difficulty with the course content, should also make use of other resources recommended by the instructor. Students who do (or may) fall behind due to illness, work, or extra-curricular activities are advised to keep the instructor informed. This will allow the instructor to recommend extra resources in a timely manner and/or provide consideration if appropriate.

#### 4.7 Relationships with other Courses & Labs

##### Previous Courses:

**MATH\*1210:** Limits, differentiation, integration, series expansion

##### Follow-on Courses:

N/A

## 5 TEACHING AND LEARNING ACTIVITIES

### 5.1 Timetable

#### Lectures:

Monday	17:30 – 18:50 (5:30 – 6:50 pm)	ROZ 101
Wednesday	17:30 – 18:50 (5:30 – 6:50 pm)	ROZ 101

**5.2 Lecture Schedule:** *The proposed schedule of topics is shown below.*

Topic	Learning Objectives
Making economic decisions, sea of problems, role of engineering economics analysis, decision making process, engineering costs, cost estimation methods, estimation of benefits.	1
Cash flow diagram, computing cash flow, time value of money, interest and equivalence, compound interest formulas: single payment, uniform series, arithmetic and geometric gradient series, nominal and effective interest rates and continuous compounding. Assumptions in solving economic problems, economic rules, application of present worth analysis, Annual cash flow analysis, annual cash flow calculation. Analysis period.	1, 2
Equivalent Uniform Annual Cost (EUAC). Equivalent Uniform Annual Benefits (EUAB). Annual worth analysis Evaluation of Alternatives with: equal lives, common multiple lives, continuous lives, and fixed study period.	1, 2, 3
Internal rate of return, Minimum attractive rate of return. Present worth versus Interest Rate. Calculation of internal rate of return. Incremental internal rate of return. Multiple IRRs. External Rate of Return (ERR). Modified Internal Rate of Return (MIRR). Selection of best alternative by incremental and graphical analysis.	4
Future worth, minimum attractive rate of return, benefit cost and payback period analysis techniques. Sensitivity and break-even analysis	4
Concept of depreciation, book value, depreciation methods, depreciation and asset disposal, depreciation for tax purpose (capital cost allowance factor), and calculation of capital coat allowance factor.	5
The role of accounting in engineering economy. Divisions within an organization, Balance sheet and income statement, Assets, liabilities, equity and evaluation of indices (Ratios).	6
Taxes. Individual and corporate, incremental nature of taxes, combined tax rates. After tax cash flow analysis, taxable income, after tax present worth and rate of return.	7
Replacement Analysis. Factors affecting replacement, Replacement analysis techniques. Concept of challenger and defender. Challenger is different from defender. Sequence of identical challengers, challenger is not repeated and defender and challenger with unequal lives. Complications in replacement analysis. After tax replacement analysis.	6, 7
Inflation in engineering economy. Measurement of Inflation. Relationship between actual dollar and real dollar. Price Indexes. Inflation and tax calculations. Effect of inflation on MARR and IRR.	8
Economic analysis in the public sector. Public decision factors. Interest rates for public projects Benefit-Cost Ratio, conventional and modified B/C and Incremental B/C. Financing duration and politics of investments	9
Uncertainty in engineering economic analysis. Range of estimated values for evaluation. Probability and joint probability distributions, expected value, measurement and consideration of risk	3

### **5.3 Design Lab Schedule**

N/A

### **5.4 Lab Schedule**

N/A

### **5.5 Other Important Dates**

Thursday, 5 September 2013: First class

Monday, 14 October 2013: Thanks giving holiday

Thursday, 31 October 2013: drop date – 40th class

Thursday, 28 November 2013: last class (Monday Schedule in effect)

Please refer to the undergraduate calendars for the semester scheduled dates.

---

## **6 LAB SAFETY**

Safety is critically important to the School and is the responsibility of all members of the School: faculty, staff and students. As a student in a lab course you are responsible for taking all reasonable safety precautions and following the lab safety rules specific to the lab you are working in. In addition, you are responsible for reporting all safety issues to the laboratory supervisor, GTA or faculty responsible

---

## **7 ACADEMIC MISCONDUCT**

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community faculty, staff, and students to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member.

## 7.1 Resources

The Academic Misconduct Policy is detailed in the Undergraduate Calendar:

<http://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-amisconduct.shtml>

A tutorial on Academic Misconduct produced by the Learning Commons can be found at:

<http://www.academicintegrity.uoguelph.ca/>

Please also review the section on Academic Misconduct in your [Engineering Program Guide](#).

The School of Engineering has adopted a Code of Ethics that can be found at:

<http://www.uoguelph.ca/engineering/undergrad-counselling-ethics>

---

## 8 ACCESSIBILITY

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability for a short-term disability should contact the Centre for Students with Disabilities as soon as possible

For more information, contact CSD at 519-824-4120 ext. 56208 or email [csd@uoguelph.ca](mailto:csd@uoguelph.ca) or see the website: <http://www.csd.uoguelph.ca/csd/>
